ABOUT US

Ilm-Learn International Education Center was established in 2015 primarily serving as an online platform for A-Levels and English courses. Over the years, the demand for more courses increased which led to Ilm-Learn having more diverse courses.

STUDYING AT ILM-LEARN

Ilm-Learn is the first education center to offer distant education to students in Azerbaijan. Distant learning offers students of every age, background and capability to enjoy the opportunities of studying and achievements. What makes Ilm-Learn different is the student centric approach that enables students to achieve the desired results. With online services, the students find it easier to focus on their studies as well as their personal life.

Address: 129 Shafaet Mehdiyev, Mirvari Park, Baku, Azerbaijan

A-LEVELS

Distance learning A-Level Courses offers students in Azerbaijan the opportunity to study online at home. The distance learning courses are of two years duration and come complete with full online course materials and tutor support via our online learning environment. On completing the course assessment you will receive a certificate awarded by ILM-Learn, CAIE (Cambridge Assessment International Education).

TRAINING FOR TEACHERS

At ILM-Learn, we believe in laying a solid foundation for teachers in Azerbaijan so that they can successfully educate the youth. With the help of experienced professionals, we are able to provide top-notch training using our online platform so that teachers from all over the country can participate in the classes.

LANGUAGE COURSES

ILM-Learn strives to provide students with a wide range of language options to choose from. Every lesson is carried out by an experienced teacher that awards lesson attendees with certification verified by Azerbaijan's Ministry of Education and our center.

Aspire. Achieve

EDUCATION ABROAD

Studying abroad is a global phenomenon, with students crossing countries, continents and oceans to get the best education possible. At ILM-Learn, we help students meet their full potential by offering CV writing skills, Career Assessment Tests, Interview Preparations and university applications.

IELTS/TOEFL

ILM-Learn offers intensive courses to students who wish to undertake these courses to pursue university degrees abroad. Universities in the UK and US require sufficient IELTS or TOEFL results to accept students into certain degrees. Despite the intensity of these courses, at ILM-Learn, students can learn at their own pace.

SATs AND SCIENCE

The purpose of the SAT is to measure a high school student's readiness for college and provide colleges with one common data point that can be used to compare all applicants. College admissions officers will review standardized test scores alongside your high school GPA, the classes you took in high school, letters of recommendation from teachers or mentors, extracurricular activities, admissions interviews, and personal essays. How important SAT scores are in the college application process varies from school to school.

Seminar & Webinars

At ILM-Learn we value the success of our students in parallel to their mental health. Everyday stressors in our lives can take a toll on our mental health and prevent young students from enjoying their life and activities which can help them develop. Our face to face seminars offer range of psychological seminars where psychologists of different expertise discuss mental health and mental wellbeing. Our seminars aim to allow attendees from various backgrounds to gather and share a safe space where they can ask away their questions related either to themselves or their family members and not feel alone in the presence of a specialist.

In times of difficulty, our webinars are designed to offer the same services to an extent of gathering attendees and discussing several issues from mental health to different scientific topics.
